MONEY DOOR GOLD SHELF

Gold Vault Course Guide

Levels 1, 2 and 3: what you will learn, lesson by lesson

Free learning guide

Inside: who each level is for, what it teaches, a line on every ready lesson, the How to use AI Lab guides and a study plan.

For complete beginners | Simple English

www.moneydoorfxacademy.com

Education only. Not investment advice. Practise on a demo account.

WELCOME

What is inside

The Money Door Gold Vault is our members' video library. Every lesson is numbered and taught on gold (XAUUSD) charts, in English with subtitles, with all times in UTC. This guide shows what each level teaches, who it is for, and a one-line summary of every lesson that is ready today, so you can plan your learning before you start.

Lesson names in this guide follow the Gold Vault. A few lines are written as short summaries. Lessons are added in number order; a lesson marked **Coming soon** in the Gold Vault is still being made.

THE BASICS

How the Gold Vault works

You open the Gold Vault at **moneydoorfxacademy.com/lab/vault.html** and log in with your free Money Door account. Which lessons open depends on your pack. Each pack is one video course level plus one year of the Money Door AI Lab, paid once a year.

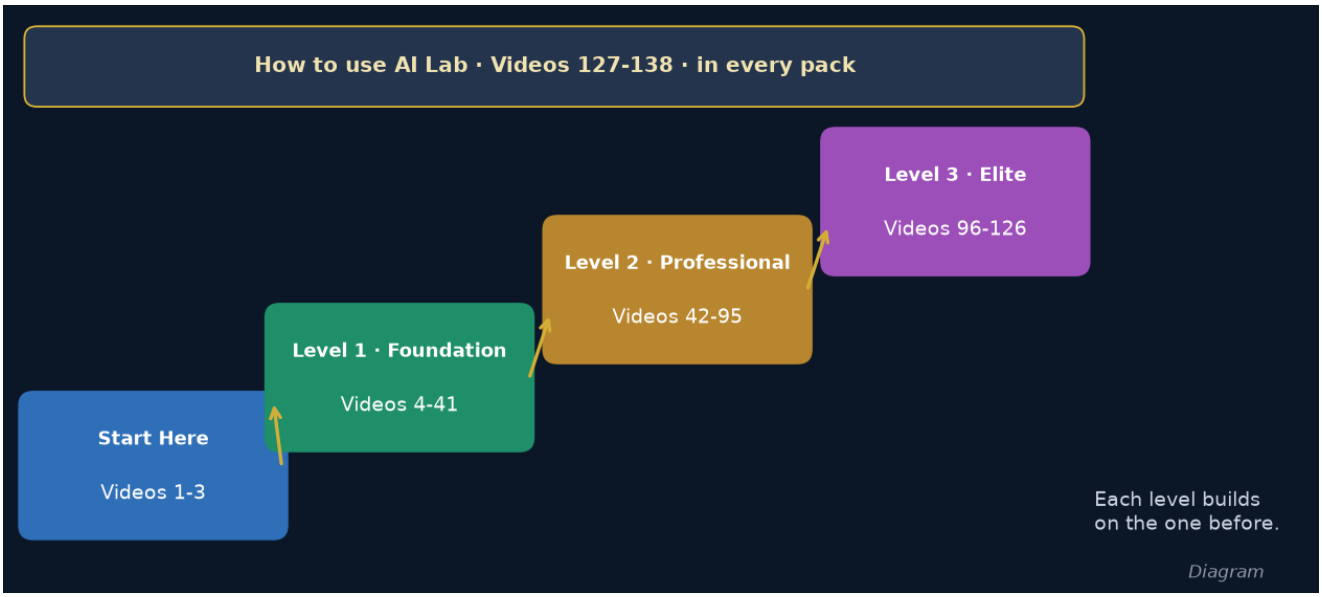
Part of the Gold Vault	Videos	What it covers
Start Here	1-3	Welcome, your learning path and our demo-first risk rules.
Level 1 · Foundation	4-41	Gold and market basics, MT5 and TradingView, price action, risk, the Money Door toolkit and first demo trades.
Level 2 · Professional	42-95	Market structure, SMC and ICT tools, the Money Door framework, the full PR & PC method, news, execution, psychology and replayed gold sessions.
Level 3 · Elite	96-126	Institutional framework, PR & PC case studies, capital management, trading as a business and gold case studies. Being added step by step.
How to use AI Lab	127-138	Step-by-step guides to every AI Lab tool.

Good to know

- **Numbered lessons.** Watch in order. You can ask our team about any lesson by its number.
- **Progress is saved on your account.** Stop on your phone and carry on from the same place on your PC.
- **Times are in UTC.** India is UTC + 5:30, so 14:30 UTC is 8:00 PM IST.
- **Watch online only.** Lessons cannot be downloaded. Please do not record or share them.
- **Access lasts while your pack is active** (one year). Renew at the same yearly price to keep the lessons open.
- **Demo first.** Every lesson is for learning. Practise what you learn on a demo account (practice money).

PLAN YOUR JOURNEY

Your learning path and which pack opens what



Each level builds on the one before. How to use AI Lab comes with every pack.

Pack	Lessons that open	AI Lab for one year
Level 1 · Foundation $100 a year	Start Here + Level 1 + How to use AI Lab (53 numbered lessons)	10 strategy tests a day on the last 1 year of gold data; 5,000 AI replies a year
Level 2 · Professional $300 a year	Everything in Level 1 + Level 2 (107 numbered lessons, plus the PR & PC core lessons)	30 strategy tests a day on the last 3 years of gold data; 25,000 AI replies a year
Level 3 · Elite $500 a year	Every level, including Level 3 as it is released, plus weekly live group sessions for one year	Many strategy tests within your pack, on minute-by-minute gold data from May 2003; 50,000 AI replies a year; custom EA building

Prices are in US dollars and paid in USDT (1 USDT = 1 US dollar) on your Account page. Every paid pack also includes the Money Door 9 Gold EAs (ready-made, for MT5), the calculators, the trading plan builder, the AI tutor and full support for questions about lessons and AI Lab features.

LEVEL 1 · FOUNDATION

Who Level 1 is for

Level 1 is where every Money Door student starts. It is built for complete beginners, students and working professionals with no trading experience, and for anyone who has tried trading without learning the basics properly.

What Level 1 teaches

- How the gold market works: prices, spread, lots, leverage and the trading sessions.
- MT5 and TradingView, step by step, on a demo account.
- Price action: candles, market structure, trend and support and resistance.
- Risk basics: lot size from a fixed risk, risk to reward, daily loss limits and stop placement.
- The Money Door toolkit: EMA 24, ATR 24, Gann 45-degree levels, SMC and ICT basics, and the daily Gold Brief.
- A daily demo routine, a trading journal and how to review your first 10 trades.

By the end of Level 1 you should understand how the gold market works, be comfortable on MT5 and TradingView, size every practice trade to a fixed risk, and keep a disciplined demo routine with a journal. Level 1 also includes How to use AI Lab (videos 127-138), so you can test ideas on real gold price history.

Level 1 at a glance

LEVEL 1 · FOUNDATION

Level 1 lessons, video by video

Module 0 · Start Here (videos 1-3)

No.	Lesson	What you learn
1	**Welcome to Money Door FX Academy**	Who we are, how the Gold Vault works and how to study it.
2	**Your path: Foundation, Professional, Elite**	The three levels and what each one adds.
3	**Demo first: academy rules and risk**	Why you practise on a demo account and the risk rules we teach.

Module 1 · Gold and market basics (videos 4-12)

No.	Lesson	What you learn
4	**What trading is, and why gold**	Trading in plain words, and why this course is built on gold.
5	**Forex, gold, indices, commodities, crypto**	The main markets and where gold (XAUUSD) fits.
6	**What moves the gold price**	The US dollar, interest rates, news and demand, simply.
7	**Bid, ask and spread on XAUUSD**	The two prices on every chart and the cost between them.
8	**Points, pips and dollar moves in gold**	How a gold move is measured and counted.
9	**Lots and contract size for gold**	What 0.01 lot and 1 lot mean for gold.
10	**Leverage and margin, simply**	Borrowed size, margin and why it raises risk.
11	**Asia, London and New York sessions in UTC**	When each session opens, in UTC, and how gold behaves.
12	**Who trades gold, and what liquidity means**	Banks, funds and traders, and why liquidity matters.

Module 2 · Platforms (videos 13-20)

No.	Lesson	What you learn
13	**Install MT5 and open a demo account**	Set up MetaTrader 5 with practice money.
14	**MT5 tour**	Charts, Market Watch, toolbox and the main buttons.
15	**Market orders**	Opening a trade at the current price on a demo account.
16	**Pending orders**	Buy/sell limit and stop orders, explained.
17	**Stop loss, take profit, modify and close**	Setting exits and managing an open demo trade.
18	**TradingView setup, timeframes, watchlists**	Getting TradingView ready for gold charts.
19	**Indicators, templates and alerts**	Adding tools, saving layouts and setting alerts.
20	**Reading your trade history**	Finding and understanding your past demo trades.

Module 3 · Price action basics (videos 21-26)

No.	Lesson	What you learn
21	**Candlestick anatomy**	Open, high, low, close, body and wicks.
22	**Candlestick psychology on gold**	What a candle shape says about buyers and sellers.
23	**Market structure: HH, HL, LH, LL**	Higher highs, higher lows and their opposites.
24	**Spotting the trend**	Up, down or sideways: reading direction.
25	**Support and resistance on gold**	Price areas where gold often reacts.
26	**Using more than one timeframe**	Big picture first, then the detail.

Module 4 · Risk basics (videos 27-32)

No.	Lesson	What you learn
27	**Why most traders lose**	The common mistakes, so you can avoid them.
28	**Position sizing and lot calculation**	Choosing a lot size from a fixed risk.
29	**Risk to reward**	Comparing what you risk with what you aim for.
30	**Daily loss limits**	A stop rule for the day, written in advance.
31	**Where a stop loss goes**	Placing a stop where the idea is proven wrong.
32	**Emotional discipline**	Following your plan when emotions run high.

Module 5 · The Money Door toolkit (videos 33-38)

No.	Lesson	What you learn
33	**EMA 24**	The 24-period moving average we use for trend.
34	**ATR 24**	Measuring gold's normal movement for stops and targets.
35	**W.D. Gann 45° angles**	The idea behind our Gann 45-degree levels.
36	**Smart Money Concepts**	An introduction to SMC terms.
37	**ICT concepts**	An introduction to ICT ideas and words.
38	**Reading the daily Gold Brief**	How to read our free daily gold levels.

Module 6 · First demo trades (videos 39-41)

No.	Lesson	What you learn
39	**A simple daily demo routine**	A short, repeatable practice routine.
40	**Your trading journal**	What to write down after every demo trade.
41	**Reviewing your first 10 trades**	Learning from your first results.

LEVEL 2 · PROFESSIONAL

Who Level 2 is for

Level 2 is for students who have finished Level 1, or who already know the basics, and want a structured, strategy-driven course. It includes everything in Level 1 and adds 54 lessons (videos 42-95).

What Level 2 teaches

- Market structure in depth: BOS, CHoCH, liquidity, premium and discount, supply and demand.
- SMC and ICT tools on gold: order blocks, fair value gaps, liquidity sweeps and kill zones.
- The Money Door framework: EMA 24, ATR 24, Gann 45-degree analysis and the Gann calculator.
- The full Money Door **PR & PC** method, with six models: DPR, DPC, EPR, EPC, GPR and GPC.
- Gold and the news (NFP, CPI, FOMC, GDP), execution and writing your own trading plan.
- Trading under fixed evaluation rules, trading psychology, and real gold sessions replayed.

The six PR & PC models

Model	Name	In one line
DPR	Day Point of Reversal	Reversals at the day's key points, such as the previous day's high and low.
DPC	Day Point of Continuation	Continuation through the day's key points, in the direction of the trend.
EPR	EMA Point of Reversal	Reversals at EMA 24, confirmed with ATR 24.
EPC	EMA Point of Continuation	Trend continuation through EMA 24, confirmed with ATR 24.
GPR	Gann Point of Reversal	Reversals at W.D. Gann 45-degree levels.
GPC	Gann Point of Continuation	Continuation through W.D. Gann 45-degree levels.

By the end of Level 2 you should have a written trading plan built around the PR & PC method, rules to follow it with discipline, and three years of gold price history in the AI Lab to test it on a demo basis first.

LEVEL 2 · PROFESSIONAL

Level 2 lessons, video by video

Module 7 · Market structure in depth (videos 42-47)

No.	Lesson	What you learn
42	**Institutional market structure**	Reading structure the way large players see it.
43	**Break of structure (BOS)**	When a trend continues past a key high or low.
44	**Change of character (CHoCH)**	The first sign that a trend may be changing.
45	**Liquidity and stop hunts**	Why price often runs past obvious highs and lows.
46	**Premium and discount zones**	The upper and lower halves of a price range.
47	**Supply and demand zones**	Areas where strong selling or buying started.

Module 8 · SMC and ICT tools (videos 48-52)

No.	Lesson	What you learn
48	**Order blocks**	Finding and marking order blocks on gold.
49	**Fair value gaps**	Spotting FVGs and how price may react.
50	**Liquidity sweep entries**	Studying entries after a sweep of highs or lows.
51	**ICT kill zones for gold**	The active time windows, in UTC.
52	**Order block, FVG and structure together**	Combining the tools into one picture.

Module 9 · The Money Door framework (videos 53-58)

No.	Lesson	What you learn
53	**EMA 24 trend reading**	Using EMA 24 to judge gold's direction.
54	**ATR 24 for stops and targets**	Sizing stops and targets to real movement.
55	**Gann 45° angle analysis**	Reading Gann 45-degree levels on the chart.
56	**The Gann calculator, step by step**	Working out the levels from the daily open.
57	**Multi-timeframe analysis**	Lining up the higher and lower timeframes.
58	**Multi-layer confirmation**	Waiting for several reasons to agree.

Module 10 · PR & PC (videos 59-66)

No.	Lesson	What you learn
59	**PR & PC overview**	The Money Door Point of Reversal and Point of Continuation method.
59A	**PR: Point of Reversal (core lesson)**	The full core lesson on reversal setups.
59B	**PC: Point of Continuation (core lesson)**	The full core lesson on continuation setups.
59C	**PR & PC Summary**	A short recap of the method (also in Tamil).
60	**DPR: Day Point of Reversal**	Reversals at the day's key points.
61	**DPC: Day Point of Continuation**	Continuation through the day's key points.
62	**EPR: EMA Point of Reversal**	Reversals at EMA 24, checked with ATR 24.
63	**EPC: EMA Point of Continuation**	Continuation through EMA 24, checked with ATR 24.

No.	Lesson	What you learn
64	**GPR: Gann Point of Reversal**	Reversals at Gann 45-degree levels.
65	**GPC: Gann Point of Continuation**	Continuation through Gann 45-degree levels.
66	**Putting PR & PC into one plan**	Bringing the six models into one written plan.

Module 11 · News and gold (videos 67-72)

No.	Lesson	What you learn
67	**Using the economic calendar**	Finding the news events that move gold.
68	**NFP and gold**	The US jobs report and how gold reacts.
69	**CPI and inflation**	Inflation data and gold.
70	**FOMC and interest rates**	US rate decisions and gold.
71	**GDP and jobs data**	Growth and employment releases.
72	**Trading around news**	Rules for spreads, gaps and news times.

Module 12 · Execution and the trading plan (videos 73-78)

No.	Lesson	What you learn
73	**Entry confirmation**	What to see before an entry.
74	**Stop loss placement**	Stops based on structure and ATR.
75	**Target projection**	Planning realistic targets.
76	**Managing and scaling a trade**	Moving stops and partial closes.
77	**Writing your trading plan**	Putting your rules on paper.
78	**A professional daily routine**	Before, during and after the session.

Module 13 · Trading under evaluation rules (videos 79-84)

No.	Lesson	What you learn
79-84	**Six lessons**	How rule-based trading evaluations work: two-step formats, daily loss and maximum drawdown limits, testing your strategy under fixed rules, mistakes that break the rules, and building a plan. Taught as education only.

Module 14 · Psychology and review (videos 85-89)

No.	Lesson	What you learn
85	**Fear and greed**	The two emotions that break plans.
86	**Overtrading**	Why more trades often means worse results.
87	**Handling losses like a pro**	Accepting losses as part of the process.
88	**Journal metrics that matter**	Which numbers to track in your journal.
89	**The weekly review**	A weekly check of your demo trading.

Module 15 · Real gold sessions, replayed (videos 90-95)

No.	Lesson	What you learn
90	**London open**	A replayed London open on gold.
91	**New York open**	A replayed New York open.
92	**A news day**	How a big news day unfolded.
93	**A trend day**	Reading a strong one-way day.
94	**A range day**	Reading a sideways day.
95	**Post-trade review**	Reviewing the session step by step.

LEVEL 3 · ELITE

Level 3: the complete programme

Level 3 is for Level 2 graduates and experienced learners who want a repeatable, disciplined process they can run on their own. It opens every level of the Gold Vault and adds weekly live group sessions with the Money Door team for one year: live market analysis and a weekly Q&A; on Zoom (the Q&A; is on Mondays at 14:30 UTC, 8:00 PM IST). Every session is announced by email to your registered email address.

Level 3 lessons are being added. Videos 96-126 are released step by step in number order, and each one opens for Level 3 members the moment it is published. Until then they show as Coming soon. These are the topics the site lists:

Module	Topics
Module 16 · Institutional framework (videos 96-101)	High-probability market mapping, advanced multi-timeframe confirmation, institutional liquidity, advanced SMC and ICT, and Gann geometry combined with SMC.
Module 17 · PR & PC at elite depth (videos 102-105)	Case studies of DPR/DPC, EPR/EPC and GPR/GPC, and how to filter out weak setups.
Module 18 · Evaluation-rules mastery (videos 106-110)	Planning each phase of a rule-based evaluation, risk scaling and consistency rules, taught as education.
Module 19 · Master accounts and capital (videos 111-117)	Professional capital management, risk allocation across accounts and scaling, taught as education.
Module 20 · Trading as a business (videos 118-122)	A professional routine, performance tracking, building consistency, managing larger capital and a long-term mindset.
Module 21 · Gold case studies (videos 123-126)	Gold's biggest trend year, its hardest range and its news shocks, studied, then a final review of your trading process.

Level 3 also includes

- Everything in Level 1 and Level 2, including the full PR & PC method.
- The AI Lab at its biggest: many strategy tests within your pack, on minute-by-minute gold data from May 2003, and 50,000 AI replies a year.
- Custom EA building: the Money Door team turns a strategy you tested in the AI Lab into your own MT5 EA.

IN EVERY PACK

How to use AI Lab (videos 127-138)

These short guides come with every pack. Watch them before your first test in the AI Lab.

No.	Lesson	What you learn
127	**Welcome to Money Door AI Lab**	What the AI Lab is and what it can do.
128	**Join, pay in USDT and log in**	Creating your account and choosing a pack.
129	**Your dashboard and plan limits**	Tests, AI replies, data years and voice minutes.
130	**Chat Lab: test a gold idea in plain words**	Typing an idea and running your first test.
131	**Reading backtest results**	Trades, win rate, profit factor, worst drop and Score.
132	**Change numbers and Find best settings**	Adjusting a strategy and trying versions.
133	**Indicators, CPR and candle patterns**	The tools the tester can read.
134	**Calculators: lot, margin, drawdown, compound, Fibonacci, Gann**	The six calculators.
135	**Trading plan builder**	Turning your rules into a written plan.
136	**EA builder and getting your EAs**	How the EAs in your pack reach you.
136A	**EA setup from scratch: install and run a Money Door EA in MT5**	Step-by-step MT5 setup.
137	**AI tutor and Analyze gold now**	Asking questions and reading a gold snapshot.
138	**Renewals, support and partner program**	Renewing, getting help and the partner program.

MAKE IT STICK

How to study the Gold Vault

A simple weekly rhythm

Day	What to do
Day 1-2	Watch two or three lessons in order. Pause and write down the key idea of each one.
Day 3	Open your demo chart and find each idea on real gold candles.
Day 4	Ask the AI tutor in the AI Lab about anything that was not clear.
Day 5	Place practice trades on demo only, with a stop loss and a fixed risk.
Weekend	Fill in your journal and review the week (lesson 89 shows how).

Habits that help

- **One level at a time.** Level 2 assumes you know Level 1. Skipping ahead usually costs more time later.
- **Re-watch the core lessons.** Lessons 59A and 59B (PR & PC) are worth watching more than once.
- **Test before you trust.** Put any idea from a lesson into the AI Lab and look at its past results before practising it.
- **Keep a journal** from your very first demo trade (lesson 40).
- **Use the free extras:** the daily Gold Brief, the Gold Levels Cheat Sheet and the free live master class (Monday to Friday, 14:30 UTC, 8:00 PM IST).

Remember: lessons teach a method; they do not promise results. Gold can move fast and losses happen. Practise on a demo account, and never risk money you cannot afford to lose.

QUICK ANSWERS

Questions students often ask

Which level should I choose?

New to trading: Level 1. You know the basics and want the full method: Level 2. You want everything, weekly live group sessions and your own custom EA: Level 3. For a personal suggestion, book the free consultation or message us on WhatsApp.

Can I move up later?

Yes. Choose a bigger pack on your Account page. If you move up within 30 days of paying, you pay only the difference. Your Account page shows the exact amount before you pay.

What language are the lessons in?

English, with subtitles. Lesson 59C (PR & PC Summary) is also available in Tamil.

What happens after one year?

Renew at the same yearly price to keep the Gold Vault and AI Lab open. If you do not renew, they lock until you renew; your progress is kept.

Do I need a broker account?

No. The lessons and AI Lab work without one. To practise, we recommend a free demo account (practice money). The step-by-step guide is at moneydoorfxacademy.com/open-account/.

Where do I ask about a lesson?

Message our team on WhatsApp (wa.me/919500930700) and give the lesson number.

Next steps

1. Start with Start Here (videos 1-3)

Watch the welcome, your learning path and our demo-first risk rules, then begin Level 1.

2. Test what you learn in the Money Door AI Lab

Describe a gold idea in plain words and see how it behaved on real gold price history. A learning tool only; past results do not promise future results.

3. Practise on a demo account

Use practice money and keep your journal from the very first trade.
